

Business Revenue Lending

Businesses can obtain money quickly through our business revenue lending program. Clients can obtain up to \$150,000 and can be approved even if they have personal credit challenges.

Loan terms are typically between 6-18 months and you can be approved with as low as a 520 consumer credit score.

This is an exceptional funding program for any business that has consistent revenue each month, even if you don't have financials to supply. All that is reviewed for approval is your bank statements and sometimes your merchant statements. So if those statements are solid, you stand a great chance of being approved.

You just can't beat a program that lends up to \$150,000 even if you have challenged personal credit, simply because your business is bringing in revenue. And it only takes 2 weeks to close and secure your money.

Approval Amount	\$5,000-\$50,000
Credit Quality	Bad Credit Accepted
Collateral	None Required
Financials	None Required
Approval terms	6-18 months
