

Purchase Order Financing

Many businesses use their working capital to fulfil purchase orders, which creates major cash-flow issues. Our Purchase Order Financing is a short-term finance option that provides capital to pay their suppliers upfront so their company doesn't have to deplete cash reserves.

With PO financing you can be approved in less than 3 weeks and you can be approved even if you are a brand new start-up business. Once approved you can then receive funding up to 95% of your existing purchase orders.

The lender truly doesn't care about your personal credit qualify. So even if you have horrible personal credit, if you have purchase orders you can still be approved.
