

### **Unsecured Business Lines of Credit:**

Established businesses with tax returns that show good revenues can get very large sums of unsecured funding from \$50,000 to \$250,000 with our Unsecured Business Lines of Credit.

This line of credit comes with incredibly low interest rates and generous payback terms and approvals range from 4-6 weeks. This is an amazing program for any business that shows good net profit on their business tax returns, and wants a high-limit open line-of-credit.

Unsecured accounts report to the business credit reporting agencies to get you the money you need, and help build your business credit profile and score in the process. Plus these accounts do not report on the consumer credit so they have no effect on your credit utilization helping keep their consumer credit scores high.
